RE: PSC docket No. 2015-160-E

According to PSC of SC Clerk's Office Notice of Filing matter ID: 256846,  
I, Joseph Wojcicki, the energy consultant and advocate of victims of this financial fraud  
present my comments fetching the problem of false claimed SC Base Load Review Act  
(FCA of BLRA) as the legal ground for SCANA / SCE&G Request for Revised Rates.

- You know that BLRA cannot be a legal ground for funding nuclear project in Jenkinsville, SC. This information with all necessary engineering analysis and briefs were delivered to your Office and/or PSC several times. The last time in summer 2014 in the form of Challenge you have just ignored to answer. Of course, because of the scale of the investment, the response had to be done in the scope that meets the high professional necessity.
  - From the non-answered Challenge, millions of victims have rights to request return stolen money. This is a simple justice for all.
  - Victims cannot excuse the last arrogant denial of the Women Voters' voices because they do not elect you to regulate the billion dollars investment with wrong decisions.
  - Your expectation that creating domino effect of obstruction of justice in denials of so many serious requests may keep you immune from any responsibility in this SCANA white-collar crime is wrong. It is wrong to expect that other public servants with only legal background should cover up this scandal for you.
  - Killing messengers will not remove the truth about FCA of BLRA.
  - SCANA (NYSE:SCG) scandal is going to be international.
  - Victims have rights to request that this time you will fulfill seriously your missions for the SC people, businesses, state and federal governments. The nuclear project has Bush-Obama stimulus funds and they can be used as Georgia utilities got \$6.5 Billion for their twin project in Vogtle, GA.
- Respectfully submitted,

Joseph Wojcicki – the energy consultant and victims' advocate  
820 E. Steele Rd.  
W. Columbia, SC 29170
